Managing your library and its quality: the ISO 9001 way, by Nuria Balagué and Jamro Saarti (Wickline), 339
The Medical Library Association's master guide to authoritative information resources in the health sciences edited by Laurie L. Thompson, et al. (Wickline), 160–1
Medicine: a competency-based companion by Jessica L. Israel and Allan R. Tunkel (Davenport), 158–9
Metadata for digital collections: a how-to-do-it manual by Steven J. Miller (Strong), 78–9
The patient safety perspective: health information and resources online and in print by Holly Ann Burt (Joseph), 77
Physician's guide to assessing and counseling older drivers, 2nd ed., American Medical Association (Joseph), 230–1
Sir William Osler: the man and his books edited by William Feindel, et al. (Rowan), 231
Staff development on a shoestring: a how-to-do-it manual for librarians by Marcia Trotta (Jones), 231–2
Using mobile technology to deliver library services: a handbook by Andrew Walsh (Leman), 340–1
Writing successful technology grant proposals by Pamela H. MacKeller (Leman), 79

Brands and branding
Creating brand love for libraries: can we be a kind of paradise? (Starr) [editorial], 168–70

Brodman (Estelle) Award for the Academic Medical Librarian of the Year
Ragon, Bart, recipient, E5

Building projects in health sciences libraries
Center for Clinical & Translational Science (CCTS) (Shipman and Jones), 181–2
Connecting community to campus through gallery space (De Santis and Perry), 179–81
Edge of chaos (Plutchak and Rios), 182–3
Library embedded in a health sciences education building (Freiburger and Doyle), 183–4
Spaces that support redefined roles of academic health sciences libraries (Shipman, et al.), 179–84

Bulbo-spinal atrophy, X-linked
Analysis of inconsistencies in terminology of spinal and bulbar muscular atrophy and its effect on retrieval of research (Arvin), 147–50

Bulletin of the Medical Library Association
Our words, our story: a textual analysis of articles published in the *Bulletin of the Medical Library Association/Journal of the Medical Library Association* from 1961 to 2010 (Funk), 12–20

Burkle, Frederick (Skip), Jr.
Joseph Leiter NLM/MLA lecturer, E5

Cancer Librarians Section, MLA
Section Project of the Year Award, recipient, E7

Carla J. Funk Governmental Relations Award, *see* **Funk (Carla J.) Governmental Relations Award**

Case studies
Assessing clinical researchers' information needs to create responsive portals and tools: My Research Assistant (MyRA) at the University of Utah: a case study (Reich, et al.), 4–11
Development of the research lifecycle model for library services (Vaughan, et al.), 310–4
Expanding roles in a library-based bioinformatics service program: a case study (Li, et al.), 303–9
The librarian as research informationist: a case study (Federer), 298–303

Chaplaincy service, hospital
Mapping the literature of health care chaplaincy (Johnson, et al.), 199–204

Circulation
Implementing a tablet circulation program on a shoestring (Capdarest-Arest), 220–4
Citation analysis
Environmental health citation patterns: mapping the literature 2008–2010 (Rethlefsen and Aldrich), 47–54
The impact of library instruction: do first-year medical students use library resources specifically highlighted during instructional sessions? (Rafferty), 213–7
Increasing the efficiency of medical research article searching for the public and experts by "shepardizing": a lesson from legal research databases (Payne) [comment and opinion], 174–6
Infectious diseases citation patterns: mapping the literature 2008–2010 (Rethlefsen and Livinski), 55–62
Mapping the literature of addictions treatment (Blobaum), 101–9
Mapping the literature of health care chaplaincy (Johnson, et al.), 199–204
Mapping the literature of radiation therapy (Delwiche), 120–7
Measures of health sciences journal use: a comparison of vendor, link-resolver, and local citation statistics (De Groote, et al.), 110–9
Our words, our story: a textual analysis of articles published in the *Bulletin of the Medical Library Association/Journal of the Medical Library Association* from 1961 to 2010 (Funk), 12–20
Clinical medical librarians
The effect of a clinical medical librarian on in-patient care outcomes (Esparza, et al.), 185–91
Expert searcher, teacher, content manager, and patient advocate: an exploratory study of clinical librarian roles (Tan and Maggio), 63–72
Clio's column
Bibliotherapy: tracing the roots of a moral therapy movement in the United States from the early nineteenth century to the present (Levin and Gildea), 89–91
Introduction (Flannery), 88
Colaianni (Lois Ann) Award for Excellence and Achievement in Hospital Librarianship
Taylor, Mary Virginia, recipient, E6
Comment and opinion
Creating shared campus experiences: the library as culture club (Harris, et al.), 254–6
Increasing the efficiency of medical research article searching for the public and experts by "shepardizing": a lesson from legal research databases (Payne), 174–6
Communicable diseases
Infectious diseases citation patterns: mapping the literature 2008–2010 (Rethlefsen and Livinski), 55–62
Comparative effectiveness research
Comparative effectiveness research designs: an analysis of terms and coverage in Medical Subject Headings (MeSH) and Emtree (Bekhuis, et al.), 92–100
Computers, hand-held
Exploring the impact of tablet computers on medical training at an academic medical center (Perez, et al.), 154–7
Implementing a tablet circulation program on a shoestring (Capdarest-Arest), 220–4
Large-scale iPad deployment in a new medical school (Dexter, et al.) [virtual projects], 241
Consumer health information
Collaborating to develop and test an enhanced text messaging system to encourage health information seeking (Dalrymple, et al.), 224–7
Evaluation of health information outreach: theory, practice, and future direction (Whitney, et al.), 138–46
Continuing Education Award, MLA
Miles, Alisha H., recipient, E6
Cooperation
Knowledge flow and exchange in interdisciplinary primary health care teams (PHCTs): an exploratory study (Sibbald, et al.), 128–37
Copyright
Faculty experiences with the National Institutes of Health (NIH) public access policy, compliance issues, and copyright practices (Charbonneau and McGlone), 21–5
Cowen, Janet L.
Virginia L. and William K. Beatty MLA Volunteer Service Award, recipient, E6
Cunningham Memorial International Fellowship
Ullah, Midrar, recipient, E5
Darling (Louise) Medal for Distinguished Achievement in Collection Development in the Health Sciences
Thompson, Laurie L., recipient, E6–7
Data collection
Measures of health sciences journal use: a comparison of vendor, link-resolver, and local citation statistics (De Groote, et al.), 110–9
Database searching
Access of primary and secondary literature by health personnel in an academic health center: implications for open access (Maggio, et al.), 205–12
Analysis of inconsistencies in terminology of spinal and bulbar muscular atrophy and its effect on retrieval of research (Arvin), 147–50
Implementation of a federated search in a multi-hospital system (Pearson and Roksandic) [virtual projects], 240–1
Increasing the efficiency of medical research article searching for the public and experts by "shepardizing": a lesson from legal research databases (Payne) [comment and opinion], 174–6
Student peer assessment in evidence-based medicine (EBM) searching skills training: an experiment (Eldredge, et al.), 244–51
Decision making, clinical
Knowledge flow and exchange in interdisciplinary primary health care teams (PHCTs): an exploratory study (Sibbald, et al.), 128–37
Use and perceptions of information among family physicians: sources considered accessible, relevant, and reliable (Kosteniuk, et al.), 32–7
Disaster planning
New roles for hospital librarians: a benchmarking survey of disaster management activities (Donahue and Featherstone), 315–8
Doe (Janet) Lecture

Images, biomedical
An exploratory study of user-centered indexing of published biomedical images (Kim), 73–6
Independent Reading Program (MLA)
Emerging roles for biomedical librarians: a survey of current practice, challenges, and changes (Crum and Cooper), 278–86
Evaluation of health information outreach: theory, practice, and future direction (Whitney, et al.), 138–46
Exploring the impact of tablet computers on medical training at an academic medical center (Perez, et al.), 154–7
The impact of library instruction: do first-year medical students use library resources specifically highlighted during instructional sessions? (Rafferty), 213–7
Mapping the literature of health care chaplaincy (Johnson, et al.), 199–204
Use and perceptions of information among family physicians: sources considered accessible, relevant, and reliable (Kosteniuk, et al.), 32–7
The value of library and information services in patient care: results of a multisite study (Marshall, et al.), 38–46
"You're just one of the group when you're embedded": report from a mixed-method investigation of the research-embedded health librarian experience (Greyson, et al.), 287–97
Indexes and indexing
An exploratory study of user-centered indexing of published biomedical images (Kim), 73–6
Infectious diseases, *see* **Communicable diseases**
Information access
Access of primary and secondary literature by health personnel in an academic health center: implications for open access (Maggio, et al.), 205–12
A comparison of clinicians' access to online knowledge resources using two types of information retrieval applications in an academic hospital setting (Hunt, et al.), 26–31
Evaluation of health information outreach: theory, practice, and future direction (Whitney, et al.), 138–46
Knowledge flow and exchange in interdisciplinary primary health care teams (PHCTs): an exploratory study (Sibbald, et al.), 128–37
Use and perceptions of information among family physicians: sources considered accessible, relevant, and reliable (Kosteniuk, et al.), 32–7
Information management education
The impact of library instruction: do first-year medical students use library resources specifically highlighted during instructional sessions? (Rafferty), 213–7
Student peer assessment in evidence-based medicine (EBM) searching skills training: an experiment (Eldredge, et al.), 244–51
Information retrieval
Access of primary and secondary literature by health personnel in an academic health center: implications for open access (Maggio, et al.), 205–12
Analysis of inconsistencies in terminology of spinal and bulbar muscular atrophy and its effect on retrieval of research (Arvin), 147–50
Exploring the impact of tablet computers on medical training at an academic medical center (Perez, et al.), 154–7
The impact of library instruction: do first-year medical students use library resources specifically highlighted during instructional sessions? (Rafferty), 213–7
Implementation of a federated search in a multi-hospital system (Pearson and Roksandic) [virtual projects], 240–1
Increasing the efficiency of medical research article searching for the public and experts by "shepardizing": a lesson from legal research databases (Payne) [comment and opinion], 174–6
Survey of user preferences from a comparative trial of UpToDate and ClinicalKey (Kronenfeld, et al.), 151–4
Information-seeking behavior
Collaborating to develop and test an enhanced text messaging system to encourage health information seeking (Dalrymple, et al.), 224–7
A comparison of clinicians' access to online knowledge resources using two types of information retrieval applications in an academic hospital setting (Hunt, et al.), 26–31
Use and perceptions of information among family physicians: sources considered accessible, relevant, and reliable (Kosteniuk, et al.), 32–7
The value of library and information services in patient care: results of a multisite study (Marshall, et al.), 38–46
Information services
Expanding roles in a library-based bioinformatics service program: a case study (Li, et al.), 303–9

Provision of online reference through ResearchGate (Garcia-Milian and Norton) [virtual projects], 242
Using library search service metrics to demonstrate library value and manage workload (Gann and Pratt), 227–9
The value of library and information services in patient care: results of a multisite study (Marshall, et al.), 38–46

Information technology
Assessing clinical researchers' information needs to create responsive portals and tools: My Research Assistant (MyRA) at the University of Utah: a case study (Reich, et al.), 4–11

Informationists
The librarian as research informationist: a case study (Federer), 298–303

Internet
Assessing clinical researchers' information needs to create responsive portals and tools: My Research Assistant (MyRA) at the University of Utah: a case study (Reich, et al.), 4–11
Assessment and impact of a new role as an embedded librarian in nursing online journal clubs (Kean), 335–8
A comparison of clinicians' access to online knowledge resources using two types of information retrieval applications in an academic hospital setting (Hunt, et al.), 26–31
Online journal clubs using SharePoint in a clinical hospital setting (Samsundar and Reynolds) [virtual projects], 242–3
Provision of online reference through ResearchGate (Garcia-Milian and Norton) [virtual projects], 242
Responsive web design for an academic health sciences library website (Rumsey, et al.) [virtual projects], 239–40
